

ATS Corporation Reassessed at CMMI Level 3

Capability Milestone Affirms Company's Commitment to Quality Results in Federal IT

MCLEAN, VA —May 19, 2010, ATS Corporation ("ATSC" or the "Company") (NYSE Amex: ATSC), a leading information technology company that delivers innovative technology solutions to government and commercial organizations, announced today that it has been reassessed at Maturity Level 3 of the Carnegie Mellon Software Engineering Institute (SEI) Capability Maturity Model Integration for Development (CMMI - DEV). CMMI is an internationally recognized standard within industry to evaluate maturity in critical technical and managerial processes.

The independent firm Acme Process Group led the appraisal using the Standard CMMI Appraisal Method for Process Improvement (SCAMPI) v1.2.

"Retaining our standing at Software Maturity Level 3 is a major achievement for ATSC that affirms our company's commitment to the highest standards in the software development process," said Chairman and CEO Dr. Edward H. Bersoff. "Our skilled professionals and the development disciplines they employ offer our customers the reassurance that a project placed in our hands has the highest probability of success and will provide deliverable results that are measurable, effective and reliable."
